

Micro-CAP™ Films

for VFFS Packaging of Cherries

Lower Costs with Extended Shelf-Life!

Micro-CAP™ Advantages:

- ✓ Maintains firmness and flavor quality while reducing losses.
- ✓ Retains red cherry color, green stems while slowing mold growth.
- ✓ Reduces weight loss and shriveling by minimizing dehydration.
- ✓ Films extend shelf-life by developing a unique, modified atmosphere.
- ✓ Co-extruded structure is formulated for excellent machine-ability and optimum heat sealing characteristics on a wide range of VFFS machinery.

Micro-CAP™ films are manufactured with precise laser micro-perforation patterns designed to modify the package atmosphere during shipping and storage. Films are tailored to match the respiration rate, pack volume and distribution temperatures for cherries. Highly machine-able film suited for retail and institutional packaging.

Typical Micro-CAP™ Film Specifications:

Pack Size Pounds	Film Width x Cut-off	Mil Thickness
3	22" x 16"	2.0
5	25.5" x 18"	2.5

**Other widths and gauges available.*
